<p><b>07.4. <u>MEDICAL AND CONCUSSION PROTOCOL</u></b></p> <p>WBD &amp; the UCI are committed to improving rider safety &amp; ensuring that athletes taking part in our events receive the highest standard of medical care possible. One area where we want to ensure consistency across all MTB disciplines at our events is the identification of potential rider head injury / concussion events &amp; the subsequent assessment &amp; medical diagnosis of concussions where necessary.</p> <p style="text-align: right;"><i>Continued...</i></p>	

## MEDICAL

The UCI have a [concussion protocol](#) & we will, in conjunction with the LOC appointed medical team, be applying this protocol across all disciplines during training & races.

Any rider who has an incident which could result in a head injury / concussion & is then asked to undergo a concussion assessment by a member of the event medic team must comply with this request. Likewise, any rider or team manager who suspects a concussion should refer themselves or their athlete to the event medical team as soon as possible. A positive diagnosis of concussion by a medical professional may result in that athlete being withdrawn from competition.

For full details of the UCI concussion protocol, the assessment process & the return to play process please follow this [link](#).
